REPORT to the SHAREHOLDERS:

During the past year your company maintained valuable property interests, both in Ontario and Quebec.

In the Rouyn-Noranda area, Duvan optioned a 30-claim property with a geological environment similar to that of D'Eldona Gold Mines' claims where extensive diamond drilling was carried out. This and other work conducted last year in the immediate area did not prove encouraging. Your management therefore decided to suspend its own plans for work, having also in mind the limited financial resources available for an extensive program on this property. The option was allowed to lapse.

Duvan Copper has again participated in the K. C. Ellard Grubstake Syndicate — a group which has a number of major participants, including Cominco Limited, Falconbridge Nickel Mines, Locana Mineral Holdings, Noranda Mines, Rio Tinto, and United States Smelting & Refining. This syndicate staked 36 claims in the Lake-of-the-Woods district of northwestern Ontario, covering a base metal prospect. Plans for further work on this property have not yet been formulated.

In the Timmins area of Northern Ontario, Duvan retains two groups of claims in good standing. These are a four-claim group in Kidd township where a geophysical survey has been carried out, and a six-claim group in Reid township where geophysical surveys have also been conducted.

Your management continues to search for properties of merit.

On behalf of the board,

T. H. McNALLY,

President.
